## Home Bar Drinks Chiller

### Specifications

|                               |                              |
|-------------------------------|------------------------------|
| Designed to Suit              | Indoor                       |
| Product classification        | Standard                     |
| Temperature Control           | Mechanical                   |
| Function                      | Drinks chiller               |
| Colour                        | Black                        |
| Gross Total Capacity (Litres) | 435lt                        |
| Temperature Range (°C) Min    | 2                            |
| Temperature Range (°C) Max    | 10                           |
| dB Rating                     | 51dB                         |
| Energy Consumption            | 1648kWh/y                    |
| Refrigerant                   | R600a                        |
| Shelves                       | 4                            |
| Feet                          | 4                            |
| Defrost                       | Compressor Cycle             |
| Product Dimensions (mm)       | 1986 (H) x 600 (W) x 729 (D) |
| Required Ventilation (mm)     | 50mm at the back 20mm sides  |
| Weight                        | 118kg                        |
| Country of Origin             | China                        |
| Warranty                      | 3 Years Parts & Labour       |

### Commercial-Grade Durability for Home

Built with the same robust standards as commercial refrigeration units, The Home Bar offers exceptional durability and long-lasting performance, tailored for home use.

### Superior Condensation Control

The Low E reflective glass minimizes condensation, keeping your beverages clearly visible and maintaining an elegant appearance.

### Low Noise Operation

Thanks to the innovative EC evaporator fan, The Home Bar operates with a significantly reduced noise output, ensuring a quiet and comfortable home environment.

### Energy-Efficient LED Lighting

The low wattage LED light provides efficient illumination with an independent on/off switch, letting you control lighting while saving energy.

### Textured Black Interior & Shelving

The stylish textured black interior and coated shelves bring a sleek, modern aesthetic that enhances the overall appeal of your home bar setup.

### Manual Temperature Control

Easily set and adjust the temperature to suit your beverage preferences with a straightforward manual controller, offering both precision and convenience.
